Guidelines

1. **Gardens must be planted by the second Sunday in June.** Gardens not planted by that date become available for others to use. NO refunds will be issued after June 1st.
2. Please maintain your raised bed/plot in a healthy manner. Chemicals, insecticides, fertilizers and other soil amendments not approved for organic gardening cannot be used within the Community Garden. Ask around for ideas!
3. Gardens must be kept reasonably weed free. Do not allow weeds to go to seed and pulled weeds must be placed around the edge of your plot or removed. If you do not properly maintain your bed, all plants will be removed and the bed will be assigned to someone else.
4. Love your neighbor, try to keep plants and vines within your box or plot. Only harvest your own bed and be considerate of where you plant tall plants as to not shade other boxes or plots. If you have a problem with anyone please discuss it with them and the steward of the garden.
5. Annual gardens must be clean and free of all plant material by Columbus Day. All participants are responsible for cleaning their plot of stakes, fences and debris. Do not leave wire, metal or poly-type materials in your garden, as it will damage plows and tillers. All sunflower and corn stalks must be placed in designated areas at the end of the season or chopped fine and incorporated into your soil.
6. Produce grown in the Community Garden may not be sold or used for profit.

Enjoy planting, caring and harvesting your garden! If you experience problems or require help with your garden during the summer, assistance is available from other Community Garden members and the UVM Master Gardener Helpline at 1-800-639-2230.
